1. On 29 July 1953, at the celebration of the 175th anniversary of the Veterinary College in Hannover, Prof. Dr. Ketz (fnu) and Prof. Dr. Schebitz (fnu), both of Leipzig, [redacted] that the V.P.-Serumwerk-Dessau had been placed under the administration of the "Landwirtschafts Ministerium", (East German Ministry of Agriculture) on or about 20 July 1953.
2. Production of vaccines and pharmaceuticals at VEF-Serumwerk-Dessau will be carried on as before, despite the change in administration.
3. Prof. Ketz was advised by Prof. Heinz Roehrer, in July 1953, that Prof. Hubert Moehlmann was to take over the direction of the Dessau plant. East German colleagues stated that Prof. Moehlmann opposed this assignment, but that Roehrer apparently would be able to force Moehlmann to accept. The plan to appoint Prof. Moehlmann as chief at Dessau was reaffirmed by Prof. Roehrer in a conversation [redacted] at the International Veterinary Congress in Stockholm in August 1953. Apparently no other personnel changes are planned at Dessau.
4. East German professors and veterinarians, who attended the celebration of the 175th anniversary of the Veterinary College in Hannover, stated that recently living conditions had improved appreciably for people of their background and qualifications.

25X1A

Comments:

1. Prof. Dr. Heinz Roehrer, president of Friedrich Loeffler Institute, Riems Island.
2. Prof. Dr. Hubert Moehlmann, director of the Immunology Section of Friedrich Loeffler Institute.

Comment:

3. Kuerschners Deutscher Gelehrten-Kalender 1950 lists Ketz, Arthur, Dr. med. vet. and Schebitz, Horst, Dr. med. vet.
